**Types of work by Percentage**

Residential: 100%

**Firm Philosophy & Objectives**

With the art of architecture, Michelle Penn, owner of Authenticity, takes a client's abstract ideas and creates a visible 3-D solution. Using a creative partnership between client and Architect, they work together through the creative process and come up with a design that represents the client's lifestyle. Michelle uses care, and attention to create a home which will be loved for years to come. Most recently, she has become very involved in use of "energy-smart homes" and is designed a "Net Zero Energy Home," a home which will produce as much energy as it uses in one year.

**Geographical Distribution of Work**

Nebraska Projects: 100%
