Firm Philosophy & Objectives

In 2004, Savage & Palandri Architects returned to their roots and changed their name to "The Architectural Offices" to reinforce the team aspect of their studio. We are now in our 26th year of providing architecture, master planning, interior design, and space planning services. To further this goal, in 2005, we have purchased and renovated the former Buffett Grocery Store Building in Dundee to house our growing practice. We are committed to producing high quality work, providing excellence in professional services and pacing ourselves with industry technology. We recognize that the design approach to each project requires an individualized understanding of the goals and objectives of each client and recognize the importance of a "common mind set" of all parties involved from the project onset.
