**Commercial Construction
Financing in Today's Market**
April 22, 2009

Design/Build Collaboration
May 27, 2009

April & May Topics may be subject to change

Join us as we learn how to successfully navigate through the requirements of the Political Subdivisions Construction Alternatives Act (PSCAA). Our speakers will address compliance with PSCAA and the selection of the Design-Builder or the Construction Manager at Risk. They will also share their real world experiences and lessons learned from projects successfully completed under the PSCAA. Questions, Concerns and Comments from the Audience will be encouraged, discussed and addressed.

Rex is an attorney who focuses his practice representing political subdivisions, particularly school districts, who has guided school districts through both the design-build and construction management at risk process under the PSCAA. Ed is vice chancellor for facilities, planning and information technology for the Nebraska State College System office and his responsibilities include oversight of campus construction and renovation. Ed was instrumental in the passage of LB 889 by the 2008 Nebraska Legislature.

Questions please contact:

Nebraska District Chair, Steve Selting (402) 449-0810
DBIA-MAC Executive Director, Oretta Smith (816) 506-1881
